## M. J. Regan Heads Dairy Club.

M. J. Regan has been elected president of "Churn and Stanchion," a dairy students' club. The organization expects to advertise the University dairy department. Since about two-thirds of the heads of dairy department of schools in the United States are graduates of the University of Missouri the club hopes to use their acquaintance to get jobs for its members. Within the last six months thirty-seven calls for men have come to the dairy department. The salaries in these positions range from \$1,800 to \$4,000.

## Reception For Boonville Team.

The Columbia High School basketball team will play Boonville High School here Friday night. After the game a reception will be given in the basement of the Virginia Building for the visiting team.

Include a loaf of Mother's Bread with your next order. Richards' Market. (adv.)

## THE COSTUME DEPARTMENT

announces the arrival of many  
—exclusive New Spring models—

Our costume department has just received some stunning new Bishop and Wooltex spring models, and more are arriving every day. The slim silhouette still reigns with slightly fuller skirt, and loose fitting belted coats. Sport suits fashioned of Tweeds, Scotch Mixture, Home Sun Twill, Basket Weave, Chamette, Checks, and Chevrons Clot are among the popular early ones. The comfortable coats show pleated backs belted with smart leather belts, delightful roomy pockets, and fastened with horn buttons. Another popular variety show the same line of skirt, with fetching little Eton jackets in all the fascinating shades of spring which include sand, blue, tan, gray, and a new sea green shade. Some of the jackets are trimmed with braid while others have collars or touches of contrasting colors, and always there are an abundance of buttons. The linings are brighter than ever this year, and suggest all the alluring shades of the rainbow. The skirts are medium in length, and usually plain with cunning little inset pockets and a few buttons occasionally adorn the side.

The top coats this season are three quarter length, fashioned with raglan sleeves, and belted with a belt of leather or of same material. Tweeds, Basket Weave, Chamette, and Camel's Hair Polo are the materials of these advanced models. The trimmings are buttons, wool fringe, and contrasting collars and cuffs are good.

We cordially invite you to come in and see these charming new spring creations. (Costume salon on the second floor.)

WOLFF-BERGER COMPANY

## Maybe There Are;

some points about a soda fountain that you don't always consider. For instance:

Are you absolutely certain that the syrups and fruits used by your favorite fountain are always fresh and sweet?

Harris' fountain has sealed in fruit and syrup jars which sit right in the ice.

Do you know whether the ice cream you are eating is free from dirt, or not?

Harris' fountain has sealed-in fruit closing ice cream doors. They can't stay open.

And now, are you sure about this most important point: Are the ice cream dipper used by your fountain allowed to stand in dirty, stagnant water?

Harris' Fountain is equipped with running water dipper wells. The water circulates constantly; so the dippers can't help but be clean.

To sum it up: Harris' new 1920 model soda fountain is complete. The ideal of cleanliness has been observed throughout its entire construction. It looks clean, and is clean. The white Carrara glass of which it is made is spotless and unstainable.

Tomorrow, we're going to tell you some more about—

HARRIS'

Perfection in Confection
